QTY/UNIT LINIT PRICE AB

HO-MRM22-002 / SUPPLY OF LABOR MATERIALS & EQUIPMENT TECHNICAL SPECIFICATIONS: Repair and replacement of nitrogen gas accumulator component in hydraulic system upward and downward of the cutting blade to maintain the efficient operating condition including operational testing, serviceable condition and complete functional restoration of Jingiu Shearing Machine. OTHER DESCRIPTION 1. Supply & Installation of brand new nitrogen gas accumulator to replace the existing/ used nitrogen gas accumulator which include but not limited to the following: a. Dismantling of used nitrogen gas cylinder accumulator and hosses. b. Installation/mounting of brand new nitrogen gas accumulator to maintain the upward and downward position of upper cutting blade during machine normal operating condition. c. Include: solenoid valve with pilot light indicator, pressure gauge component, movement limit switch, machine operator control switch that can be compatible and adaptable to existing digital operator control switch that can be compatible and adaptable to existing digital operator control panel. 2. Supply of Labor and Materials for the Repair and Replacement of two (2) units Left Hand (LH) and Right Hand (RH) hydraulic cylinder seals which includes but not limited to the following item or parts a. Two seats of piston monoseal. b. Iwo sets of piston wear and guide ring. c. Two sets of oring d. hwo sets of wiper seal/wipermetal. 3. Supply of Labor and Materials for the reconditioning of hydraulic oil pump which include but not limited to the following item on parts. a. Oring b. Gasket c. Machine/shaft key	
TECHNICAL SPECIFICATIONS: Repair and replacement of nitragen gas accumulator component in hydraulic system upward and downward of the cutting blade to maintain the efficient operating condition including operational testing, serviceable condition and complete functional restoration of Jingiu Shearing Machine. OTHER DESCRIPTION 1. Supply & Installation of brand new nitragen gas accumulator to repicate the existing/ used nitragen gas accumulator which include but not limited to the following: a. Dismantling of used nitragen gas cylinder accumulator and hoses. b. Installation/mounting of brand new nitragen gas accumulator to maintain the upward and downward position of upper cutting blade during machine normal operating condition. c. Include: solenoid valve with pilot light indicator, pressure gauge component, mavement limit switch, machine operator control switch that can be compatible and adaptable to existing digital operator control panel. 2. Supply of Labor and Materials for the Repair and Replacement of two (2) units Left Hand (LH) and Right Hand (RH) hydraulic cylinder seals which includes but not limited to the following item or parts a. Two seats of piston monoseal. b. Two sets of piston wear and guide ring. c. Two sets of wiper seal/wipermetal. 3. Supply of Labor and Materials for the reconditioning of hydraulic oil pump which include but not limited to the following item on parts. a. O-ring b. Gasket	
Repair and replacement of nitrogen gas accumulator component in hydraulic system upward and downward of the cutting blade to maintain the efficient operating condition including operational testing, serviceable condition and complete functional restoration of Jingiu Shearing Machine. OTHER DESCRIPTION 1. Supply & Installation of brand new nitrogen gas accumulator to replace the existing/used nitrogen gas accumulator which include but not limited to the tollowing: a. Dismantling of used nitrogen gas cylinder accumulator and hoses. b. Installation/mounting of brand new nitrogen gas accumulator to maintain the upward and downward position of upper cutting blade during machine normal operating condition. c. Include: solenoid valve with pilot light indicator, pressure gauge component, mavement limit switch, machine operator control switch that can be compatible and adaptable to existing digital operator control panel. 2. Supply of Labor and Materials for the Repair and Replacement of two (2) units Left Hand (LH) and Right Hand (RH) hydraulic cylinder seals which includes but not limited to the following item or parts a. Two seats of piston monoseal. b. Two sets of piston wear and guide ring. c. Two sets of oring d. two sets of wiper seal/wipermetal. 3. Supply of Labor and Materials for the reconditioning of hydraulic oil pump which include but not limited to the following item on parts. a. Oring b. Gasket	
Repair and replacement of nitrogen gas accumulator component in hydraulic system upward and downward of the cutting blade to maintain the efficient operating condition including operational testing, serviceable condition and complete functional restoration of Jingiu Shearing Machine.
