- 1.2 Standalone Capture System and Redaction Feature
 - 1.2.1 Capture System
 - Kofax Express for Low Volume – seamless integration with ADF scanner for direct invoke of corresponding scan speed, able to extract using OCR, Barcode (1D/2D) and multiple document separation and deployment-dotNetFramework 3.2, install, setup, and configure of Kofax Express 3.2, license activation, simple job, setup, basic end-user training, VAT, with Capture Bites Export Connector to Forfax Express for Desktop to DocuShare.
 - 1.2.2 Redaction Feature
 - Capture Bites Metatools that able to redact information from output or processed image pending actual release to central repository and multi-export that allows export of processed automatically in multiple export folders and collection with non-redacted and redacted images.
 - 1.2.3 Standalone Capture System
 - 1.2.3.1 System Standalone
 - 1.2.3.2 Edition
 - Able to support approximately 80ppm scan speed
 - 1.2.3.3 Powerful Information Capture
 - Automate document capture and Archiving
 - Powerful workstation-based package
 - 1.2.3.4 Scalable and Extendable
 - Supports the ability to add additional workstations for scanning, indexing and export
 - Provides the ability to deploy additional processing power and stations to improve the throughput of their system
 - 1.2.3.5 Intuitive and User-Friendly Interface
 - Must have familiar interface as Microsoft Office applications
 - Execute commands with a single mouse click for faster adoption and greater productivity

- 1.2.3.6 Highest Image Quality
 - Should enable users to easily manipulate multiple document images
 - Should allow users to find, replace, gather, zoom, divide, rotate, swap, order and place document images
 - Should have patented image perfection software
 - Should make images look better without any pre-scan document preparation or setup
 - System should allow increase extraction accuracy and automation
- 1.2.3.7 Integrations
 - System should have intergration with Microsoft Share Point
 - Should enables to index, classify and deliver documents and data into SharePoint
 - Should allow easy and fast retrieval in SharePoint
 - Should support export connectors for out-of-the-box compatibility with popular ECM and ERP systems
 - May have an export API to be available for custom or advanced export use
 - System should be able to export to the agency's existing ECM or backend retrieval but not limited to inherent or third party plug-in or add on
- 1.2.3.8 Data and Zonal Recognition
 - Should be able to automatically extracts data from documents in over 100 languages
 - Should have OCR (Optical Character Recognition) for text
 - Should have ICR (Intelligent Character Recognition) for handwriting
 - Must have bar codes recognition that automatically extracts and populated data into index fields
 - System should be able to have automatic data recognition
 - System should accelerate document indexing
 - System should ensure accuracy over manual data entry
 - System should allow users to train to locate the key index information in a document and remember that location and extracts the data from future documents, reducing manual data entry effort

- 1.2.3.9 Bar Code Capabilities
 - System must read most commonly used 1D and 2D bar codes, even those obscured with stamps, handwriting or coffee cup stains
 - System should allow scanning in color to improve accuracy further, allowing flawless decoding of bar codes at low resolutions (100 or 150 dpi)
 - System should be able to detect bar codes wherever they are placed on a page, even when they are skewed at angles
- 1.2.3.10 Rubber Band Recognition
 - System must have easily index documents by selecting the text in the document with their mouse
 - System must automatically populate the index field with the information highlighted by the user
- 1.2.3.11 Watched Folder
 - System should automatically process images (TIFF, BMP, JPEG and PDF) uploaded to a watched folder
 - System should process images from sources such as MFPs, faxes and saved images
 - System must provide a single interface to users' back-end repository for all images from all sources
- 1.2.3.12 Searchable PDF
 - System should have a searchable PDF feature, includes live text with PDF images
- 1.2.3.13 Image Compression
 - System must have image compression captures crisp, clear color images while delivering the small file size of black and white images for quicker downstream processing
 - System should allow users to have lower storage requirements, and improved efficiency thru image compressions
- 1.2.3.14 Background Export
 - System must have background processing or export that complements Searchable PDF and image compression
 - System should allow processing in the background so

- 1.2.3.15 Validation Scripts and Database Lookup
- System must have background processing or export that complements Searchable PDF and image compression
 - System should have function of looking up data from multiple database sources
 - System should have a feature to validate data entered into a field
- 1.2.3.16 Point-and-Click Rescan
- System should have a "Point-and-Click Rescan" option to improve the process by inserting the rescanned document in the correct place without rescanning the entire batch
- 1.2.3.17 Flexible Document Separation
- System must have capability to separate groups of documents automatically
 - System must have capability to divide the batch into individual document groups
 - System should automatically divide documents based on patch codes, bar codes or inserted blank pages
- 1.2.3.18 Post-Scan Processing with Corrections
- System must have a feature that may reserves the image for later inspection and correction by the operator without needing to rescan the document
 - System should retain enough information from the original that the operator can manually correct the image after completion, enabling the scanner to run without pause
 - System must have a feature that may erase signatures or sensitive information from scanned images with the erase inside function or redaction but not limited to inherent or third-party plug-in or add-on
- 1.2.3.19 Visual Undo History
- System must have Undo button that shows the sequence of processes that were done or undone on any document image

Contract between NPC and Microgenesis Software, Inc. Doing Business under the Name & Style of Microgenesis Business Systems
Computer Software License Document Management System (DMS)
Contract No. LOG MSSP 2023-08-061-ALC

Should SERVICE PROVIDER fail to satisfactorily deliver any or all of the Goods and/or to perform the services within the period(s) specified in this Contract inclusive of duly granted time extensions if any, NPC shall, without prejudice to its other remedies under this Contract and under the applicable law, deduct from the Contract Price, as liquidated damages, the applicable rate of one tenth (1/10) of one (1) percent of the cost of unperformed portion for every day of delay until actual delivery or performance. Once the amount of liquidated damages reaches ten percent (10%), NPC may rescind or terminate the Contract without prejudice to other courses of action and remedies open to it.

**ARTICLE VII
LIQUIDATED DAMAGES**

In case of surety bond, any extension of the contract time granted to the SERVICE PROVIDER, shall be considered as given, and any modification of the Contract shall be considered as authorized, as if with the expressed consent of the surety, provided that such extension or modifications falls within the effective period of the said surety bond. However, in the event that such extension of the contract time would be beyond the effective period of the surety bond first posted, it shall be the sole obligation of the SERVICE PROVIDER to post an acceptable Performance Security within ten (10) calendar days after the contract time extension has been granted by NPC.

The performance security shall be valid for the duration of the contract and shall remain valid and effective until after sixty (60) days from NPC's final acceptance of the item. The Performance Bond shall also be answerable for any damages or penalties or any expenses that NPC may suffer as a result of the failure of the SERVICE PROVIDER to perform its obligations under this Contract. The Performance Bond shall be entirely forfeited by NPC upon default of the SERVICE PROVIDER.

- a. Cash, Manager's/Cashier's Check, Bank Draft/Guarantee issued by a Universal or Commercial Bank or Irrevocable Letter of Credit issued by a Universal or Commercial Bank. Provided however, that it shall be confirmed or authenticated by a reputable local Universal or Commercial Bank if issued by a Foreign Bank equivalent to Five Percent (5%) of the contract price.
- b. Surety Bond callable upon demand and penal in nature issued by a Surety or Insurance Company duly certified by the Insurance Commission as authorized to issue such security which shall be Thirty Percent (30%) of the total contract price.

The Insurance Company that will issue Performance Security must be accredited by the Insurance Commission and acceptable to the National Power Corporation.

**ARTICLE VIII
NON-ASSIGNMENT AND NO SUB-CONTRACT**

The SERVICE PROVIDER shall not, without the written approval of NPC, assign, transfer, pledge, sub-contract, or make any other disposition of interest in this Contract. Any unapproved assignment, transfer, pledge, sub-contracting or any other disposition, shall be sufficient ground for NPC to terminate or cancel this Contract motu proprio without need of judicial action. Should NPC give its written approval, such consent shall not relieve the SERVICE PROVIDER of its responsibilities under the Contract. The SERVICE PROVIDER shall ensure that the terms and conditions of any sub-contract shall comply and conform with the terms and conditions of this Contract. The SERVICE PROVIDER shall be responsible for the observance by the sub-SERVICE PROVIDER of the terms and conditions of this Contract.

If any portion of the project sub-contracted is not performed faithfully in accordance with the contract, the sub-SERVICE PROVIDER shall be removed or replaced immediately upon the written request of NPC, provided, however, that any failure of NPC to make such request shall not relieve the SERVICE PROVIDER of its obligations under the contract. NPC shall not be responsible for the delays or costs incurred by the SERVICE PROVIDER because of the disapproval or removal of the sub-SERVICE PROVIDER, or because of the late submission of its approval.

**ARTICLE IX
AGREEMENT MODIFICATION**

No modification, alteration or waiver of any provision of this agreement shall be binding upon the Parties unless evidenced by a written amendment signed by the Parties.

**ARTICLE X
SUSPENSION OF WORK**

NPC may suspend the work wholly or partly by written order for a certain period of time, as it deems necessary due to force majeure or any fortuitous events as defined in the contract. The SERVICE PROVIDER shall take all reasonable steps to minimize the costs allocable to the work covered by such order during work stoppage.

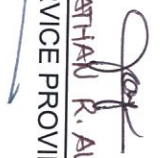

Before the suspension order expires, the procuring entity concerned shall either lift such order or terminate the work covered by the same. If the suspension order is lifted, or if the period of the order expires, the SERVICE PROVIDER shall have the right to resume work. Appropriate adjustments shall be made in the delivery or contract schedule, or contract price, or both, and the contract shall be modified accordingly.

ARTICLE XI
PRE-TERMINATION

Notwithstanding any provision to the contrary, NPC has the right to terminate, cancel and/or rescind this contract motu proprio, without need of judicial action, in case of breach thereof by the SERVICE PROVIDER, by giving at least ten (10) day written notice, which shall be final and binding on all parties. Upon receipt of NPC's notice, the SERVICE PROVIDER cannot remove, withdraw or pull-out any equipment, machinery, tool, material and supply brought to the project site without the written approval of NPC.

Any misrepresentation made by the SERVICE PROVIDER in the submission of documents, or suppression of material facts, which if known could have disqualified the SERVICE PROVIDER gives NPC the immediate right or recourse to motu proprio, without need of judicial action, rescind, abrogate or otherwise terminate the Contract.

Within thirty (30) days after termination, cancellation or rescission of this Contract, the Parties shall settle their respective accountabilities as of the date of termination, cancellation, or rescission, including the refund of any and all advances made, plus legal interest from the date of receipt of the amount or amount advanced.

ARTICLE XII
WARRANTY CLAUSE

SERVICE PROVIDER hereby warrants that he or his representative has not offered or paid, directly or indirectly, any government officer and NPC official or employee any consideration or commission for the Contract nor has he or his representative exerted or utilized any corrupt or unlawful influence to secure or solicit this Contract for any consideration or commission; that the SERVICE PROVIDER will not subcontract any portion or portions of the scope of work of the Contract awarded to him to any official or employee of the NPC and to the relatives within the 3rd degree of consanguinity or affinity of NPC's officials who are directly and indirectly involved in Contract awards or project execution; and that if any commission is being paid to a private person; he shall disclose the name of said person and the amount being paid; and that any violation of this Warranty shall constitute sufficient ground for the rescission or cancellation of this Contract; or the reduction from the Contract Price of the consideration or commission paid without prejudice to the filing of any action for the violation of RA No. 3019 as amended (otherwise known as the Anti-Graft and Corrupt Practices Act) and/or other applicable laws against the SERVICE PROVIDER and/or his representative and/or the erring NPC official(s) and employee(s).
