Section VI - Technical Specifications

Part I - Technical Specifications

TS-1.0 GENERAL

This specification covers the technical requirements for the **Twelve (12) Months Supply and Delivery of Fuel Requirements for NPC-HO for CY 2023** at NPC Gasoline Station, Head Office, Diliman, Quezon City.

The Supplier warrants that its hauling/delivery of fuel truck including all equipment used (valves, hoses, dispensers, etc.) for delivering fuel products to NPC meets all the safety requirements and standards and undergone the required pre-qualifications process and regular safety inspections and maintenance to meet safety requirements and standards in the Philippines.

During the contract period of supply and delivery of the fuel requirements for NPC-HO, the Supplier shall engage properly trained and experienced personnel to ensure that safety rules, practices and procedures are being implemented.

Utmost care shall be strictly observed by the Supplier during fuel delivery at NPC-HO compound, i.e. fuel transport, fuel transfer, etc. Any untoward incidents resulting to injury or damage to people and property due to the unsafe practices, carelessness, negligence or fault of the Supplier, the Supplier shall repair or replace all damaged items at its own expense and to the satisfaction of NPC.

TS-2.0 SCOPE OF WORK

The works and services to be performed by the Supplier under this contract shall essentially consist of:

- 2.1 A door-to-door supply and delivery on staggered basis of 96,086 liters of Biodiesel Fuel (composed of 98% diesel and 2% CME) and 43,986 liters of E-10 Gasoline (composed of 90% unleaded gasoline and 10% ethanol) Premium Gasoline RON 95 that conforms to the quality standards prescribed under RA No. 8749 "The Philippine Clean Air Act of 1999" and RA No. 9367 "The Biofuels Act of 2006". The fuel requirements (gasoline and biodiesel) must be EURO 4 compliant as required under Department of Energy (DOE) and Philippine National Standards (PNS) – PNS/DOE QS 004:2017 for Automotive Diesel Oil and PNS/DOE QS 008:2018 for E-10 Gasoline (Premium);
- 2.2 Supplier shall provide, install, regularly calibrate and maintain fuel dispensers required for the operation of NPC's Gas Station. Calibration Certificates shall be submitted by the Supplier to NPC prior to commencement of the contract period and every six (6) months thereafter.
- 2.3 Supplier shall conduct fuel tank/s dewatering both for diesel and gasoline tanks during contract implementation or on the date as scheduled by NPC;
- 2.4 Supplier shall be responsible for the implementation of safety rules, practices and regulations during delivery and transferring of fuel to NPC-HO
